Sometimes You Need To Look
At Life From A Different Perspective

"Show Off" Sunday

This Sunday, the Worship Support Committee will be working with PJ to "show off" a vision for how our new screen will function during Worship. Throughout the service, a temporary screen will be used to display what you might expect to see on a typical Sunday. The purpose of this Sunday's experiment is to provide an answer to the oft-asked question: "How might a screen be used during worship?"

Bear in mind that Sunday's configuration of the screen will not reflect the design of what is being proposed for the look or structure of the screen, nor will we be using the high technology of the screen we are purchasing. However, you can see beautiful hand-drawn renderings of what is being proposed, done by our own Vicky Patterson. They are on display in the church, as they were last Sunday.

Show Off Sunday will conclude with a listening session immediately following worship. We will stay after worship to reflect on what you noticed, what you wondered, and other thoughts. Join us for worship, stay for discussion.
